Direct Course College of Direct Support (CDS) content is being developed by the Center for Research and Training on Community Living at the University of Minnesota, leading experts in the field of intellectual and developmental disability. The College of Direct Support Editorial Board consists of subject experts who examine and contribute to the development of courses to ensure that each course to directly support professionals offers top insight and nationally recognized best practices. With CDS, you can believe you're providing your staff with the latest and most reliable information available. We deliver our content through Elsevier Performance Manager, a leading learning management tool. The platform allows students to access courses online at all times, and allows training supervisors to add custom content so you can integrate education into everyone's current workflow. Elsevier Performance Manager enables students to achieve educational goals at their own pace, empowering team leaders to mitigate risk, demonstrate compliance and improve the learning process of each staff member. Combining the latest research, skill-based training and an advanced learning management tool, we have created an excellent interactive training solution. Instead of being a burden, training direct support staff can be a natural part of your current workflow. Explainer ... No information is available for this page.
